We were so blessed to have Moses Omondi of Echoes of Mercy, Kenya visit with us in October. Touch The World partners with Moses in Kenya and the Lord is doing an amazing work with Echoes of Mercy. Just four years ago when David Cooper, our director of projects and his wife, Sandy, were at Kamuya Village there was one mud sided church in the village. The Lord has transformed the village and it now has a new church building, a school, a mission house, a medical clinic and a kitchen. Moses has a heart to bring Christ to this region as well as others. Kamuya is where Moses was born and raised. His father is the pastor of the church in the village. Moses has a love for Christ that is being lived out in and through him.

While Moses was visiting with David Cooper in October they visited Samaritans Purse. SP will be shipping a medical container for the medical clinic in Kamuya. Instead of mailing the paper work to Moses they were able to place it in his hands. God's timing is so amazing. Moses will need mission teams to come over and work with him in this great work. We also want to build an orphanage in the village and there are children that need to be sponsored. If anyone is interested in being a part of this great work by giving or going please contact me. You can go on line to our website to sponsor a precious child. We praise the Lord for His goodness to this project as well as the many others. We thank those of you that have given to make this all possible. You all are partners with us and we are so thankful for each and every one of you! Keep us in your prayers and may the Lord bless your giving hearts.

Until He returns,
